Antibody IgG (SARS-CoV-2)

Run by BS on 12/6/2021 11:17:49 AM

Test ran at Happy Kids Pediatrics/Felix Care Centers
 1345 E Main St Suite #112
 Mesa, AZ 85203
 (P) 480-590-1268
 (F) 480-503-8151
 CLIA# 03D2217041

Antibody IgG (SARS-CoV-2) Positive **POSITIVE**

Notes: Negative results do not rule out COVID-19 infection, particularly in those who have been in contact with the virus. Follow-up testing with a molecular diagnostic test (PCR) should be considered to rule out infection. Results from antibody testing should not be used as the sole basis to diagnose or exclude COVID-19 infection or to inform infection status.

Positive results may be due to past or present infection with non-COVID-19 corona virus strains, such as corona virus HKU1, NL63, OC4, or 229E.

Healthcare providers should work with patients to determine how best to care for them based on the test results along with previous medical history and symptoms.

You can review the "FAQ Sheet" for health care providers and patients on our website at <https://www.precisionlabaz.com>

If the findings do not fit the clinical picture, please submit a new sample.
